Leonardo
DISPENSING SOLUTIONS

LEADING THE WAY IN DISPENSING SOLUTIONS

Leonardo's dispensers, soap and paper products have been developed alongside each other to deliver significant cost and volume in use savings, as well as to improve hygiene standards across all areas of the washroom and workplace.

Both the Leonardo Compact and Leonardo Classic ranges of complementary and aesthetically pleasing dispensers can demonstrate significant cost, hygiene and environmental benefits when compared to existing toilet, hand washing and drying options.

As the name suggests, the Leonardo Compact range is small yet mightily functional, with the market leading Versatwin™ toilet roll system, Foam Soap and a wide choice of hand drying options. The Leonardo Compact range has been designed with a smaller footprint to maximise available space whilst maintaining the core Leonardo principles of cost saving, hygiene improvement and respect for the environment.

Versatwin™

- 360m 1 ply capacity
- 250m 2 ply capacity
- One roll used at a time
- Infinity Paper System
- Bio Kleen™ treated transfer handle

Order code: DSTA06

Foam Soap

- Antibacterial foam option
- Perfumed foam option
- 1 litre capacity
- Single use pouch and nozzle
- 0.4ml shot capacity
- Easy load system
- BS EN 13727 rating, making it suitable for use in clinical areas

Order code: DSSA01

M-Fold 500

- 500 hand towel capacity
- S-shape profile prevents jamming
- Single sheet presentation
- No-touch dispensing
- Slim profile

Order code: DSHOB6

Mini Lever

- 200m capacity
- Controlled sheet length
- Towel 'in'
- Bio Kleen™ treated handle
- Easy load system

Order code: DSRML1

Mini MHF

- 150m capacity
- Controlled sheet length
- Towel 'out'
- No-touch dispensing
- Manually operated
- Can only be used with 150m roll

Order code: DSRMAN

Tear & Dry

- 200m capacity
- Controlled sheet length
- Towel 'out'
- No-touch dispensing
- Battery operated

Order code: DSRMTD

Leonardo

CLASSIC

The Leonardo Classic range offers the extra capacity required for high volume areas whilst maintaining the Leonardo principles of cost saving, hygiene improvement and respect for the environment. With toilet and hand drying solutions including stub-roll transfer options, the Leonardo Classic range has all the features you need to manage any busy washroom or workplace.

- 750 hand towel capacity
- S-shape profile prevents jamming
- Single sheet presentation
- No-touch dispensing
- Slim profile

Order code: DSHA03

Lever Control

- 240m capacity
- Controlled sheet length
- Towel 'in'
- Bio Kleen™ treated handle
- Stub-roll transfer

Order code: DSRA12

Mechanical Hands Free

- 240m capacity
- Controlled sheet length
- No-touch dispensing
- Manually operated
- Stub-roll transfer

Order code: DSRMHF

Smart Sensor

- 240m capacity
- Programmable sheet length
- Towel 'in' or 'out'
- No-touch dispensing
- Sensor operated
- Stub-roll transfer

Order code: DSROB9

CLASSIC

WHICH PRODUCTS ARE RIGHT FOR YOU?

Leonardo can supply dispensing solutions for the full washroom with Toilet Roll, Foam Soap and Hand Drying options to suit all environments and user requirements. Every product we produce is ethically sourced and created with an environmental conscience. The Leonardo range of dispensers reduce waste, control consumption and offer hygiene benefits to all users.

Soap

Leonardo soap is a thick, luxurious foam available in antibacterial and perfumed formulations. Both provide a pre-lathered, moisturising foam for fast, effective and hygienic hand washing.

Toilet Rolls

Leonardo toilet rolls are all manufactured from 100% recycled waste paper and are Ecolabel certified. Available in 1 or 2 ply options, they have been designed to fully maximise the dispenser's capacity whilst maintaining user comfort standards.

Hand Towels

Multi-fold hand towels are available in white, blue or green. The hand towels are inter-folded so when dispensed they present one sheet at a time for controlled consumption.

Roll Towels

Roll Towel Workplace: 1 ply towel designed for everyday use. Both absorbent and strong in use. Leonardo's textured Roll Towels lightly exfoliate the skin removing bacteria and leading to improved hand hygiene.

Roll Towel Comfort: 2 ply laminated tissue used in customer facing environments. A light pattern emboss brings an added feel of softness to the user.

Roll Towel Multi-Purpose: 2 ply tissue designed for hand drying but can also be used as a light surface wiper. Popular in food preparation / processing environments.

Roll Towel Flushable: 2 ply tissue designed for hand drying but which breaks down in water. Popular in educational establishments.

FEATURES AND BENEFITS OF A LEONARDO DISPENSER

Leonardo dispensers and the products that go through them have all been designed and developed with three core principles in mind; Reducing cost and volume in use, improving hygiene standards and respect for the environment.

Reducing Cost and Volume in Use

The 'Cost and Volume in Use' benefits of a Leonardo dispenser mean that less is literally more.

When considering any new dispensing system it is not just the cost of the product currently in use that should be taken into account but also how much and how often it is purchased. Leonardo's systems offer a higher capacity and more efficient dispensing solution which give user benefits of less waste, less frequent refills, fewer orders and deliveries and more janitorial storage space.

All against a backdrop of improved hygiene and, just as importantly, significant cost savings.

By developing paper and soap products that fully maximise the dispenser's capacity and by controlling user consumption through dispenser innovation, Leonardo can demonstrate cost and volume savings in any washroom or workplace environment.

Improving Hygiene

When hygiene is paramount, Leonardo will fulfil even the highest of hygiene requirements.

Improving standards of hygiene is at the core of Leonardo's philosophy, without compromising cost savings or respect for the environment.

By producing wipe-clean, lockable dispensers that encase the rolls, and paper products that reduce bacteria on the hands, Leonardo has been proven to deliver exemplary hygiene standards across all industry sectors and is the preferred choice in many healthcare, food and educational environments.

Respecting the Environment

By offering 100% recycled and Ecolabel tissue options, and ensuring that all dispensers are manufactured under the strictest environmental controls and are all fully recyclable. Leonardo is proud to create products that are more than effective in use yet are kind to the planet. Leonardo's intelligent dispensers provide the user with the correct amount of paper, reducing waste and ensuring that less paper is used whilst costs are controlled.

Cost and Volume in Use

Uses per case

One case of Leonardo Foam soap: 4 x 1 litre

Shot size: 0.4ml

Shots per case: 10,000

Hygiene

- New nozzle with every pouch minimises cross contamination
- Antibacterial formulation available which kills 99.999% of harmful bacteria
- Hermetically sealed pouches keep soap bacteria free
- Rich lather encourages effective usage
- BS EN 13727 rating, making it suitable for use in clinical areas

Environment

- Formulated with raw materials from renewable sources
- Biodegradable soap
- 100% recyclable dispenser

Soap Dispensing

Cost and Volume in Use

Hand dries per case

LEONARDO QUALITY STANDARDS

ISO9001

All Leonardo products are manufactured under strict ISO9001 quality standards, ensuring the manufacturing processes are both effective and efficient and that the highest standards of quality are maintained. This means that the finished product meets the expectations of both Leonardo and the customer.

CHSA

As a founder member of the CHSA, Connect Hygiene, owners of the Leonardo brand, adhere to a strict code of practice for accurate product descriptions and labelling, meaning that whatever is stated on the label is what is in the box.

Ecolabel

With all our dispensers offering recycled paper options, Leonardo's environmental credentials are further enhanced with the Ecolabel accreditation awarded on selected product lines. The accreditation mirrors Leonardo's forward-thinking approach to the wider environment and the importance of protecting our natural surroundings. By putting the Ecolabel logo on our products, we are encouraging customers to consider sustainability during the buying process.
