

## THE WORLD'S MOST ATTRACTIVE PAPER

### WHY IS MAGNECOTE SO UNIQUE?

MagneCote is the world's first Magnet Paper. Combining a coated paper with a proprietary magnetic coating to create a paper that can be perforated, die cut, and laminated, and can be run on sheetfed, flexo, most HP Liquid toner Dry toner presses. MagneCote delivers high quality printing with excellent colour reproduction, superior ink adhesion, and a long shelf life.
